PASS Practice Tests

Tests with Instructional Feedback for Grades 3-12

PASS practice tests are designed to help Louisiana students prepare for the LEAP, iLEAP, End-of-Course (EOC), LAA2, and GEE tests. PASS includes tests in English language arts (ELA), mathematics, science, and social studies.

The Louisiana Department of Education is developing transitional tests for grades 3-8 and high school in ELA and mathematics that will be more closely aligned to the Common Core State Standards (CCSS). These tests will be administered in 2012-2013 and 2013-2014.

- Writing prompts like those on the transitional tests are being added to the PASS Practice Tests for grades 3-8 and English II and English III.
- The PASS math tests for grades 3-8 will be replaced during the fall of 2012 to assist students with the transitional tests. For high school, new tests for Algebra I and Geometry are being added to help students prepare for the transitional EOC tests.

U.S. History tests were recently added to PASS to serve as practice for the EOC test.

For more information about the Common Core State Standards and the implementation of the new statewide assessments, go to

http://www.louisianaschools.net/topics/common_core.html
